

A Ray of Hope

BUFFALO, May 21, 2021-We highly appreciate the efforts of the United States and all the world powers, who practiced their influence and resources to command the Israeli regime to end its' brutal attacks on Palestinian children, women, and civilian homes, which left 232 dead in Gaza,12 in Israel and numerous injured. Our prayers are with the people, who got affected by the recent woeful events. Strict compliance of the highest degree of restraint was the need of the day to avoid dragging the region down to a new low of volatility.

We salute the bold US Congressional and Senatorial leaders, who came forward to condemn Israel's aggression and we highly appreciate their stance. We believe that without their contribution the possibilities of the ceasefire were very bleak as the US' just intervention to end the intensifying humanitarian crisis was the need of the day. As Nelson Mandela said, "To deny people their human rights is to challenge their very humanity." We deem that the Palestinian people have been denied their humanity for too long. Their continued suffering marginalizes US leadership in the world and undermines its long-term interest in the region.

which is just, and which deals with both people, both parties of the conflict, not at the cost of each other, lest the vicious cycle of human loss will continue unless there's a solution." - wkbw.com

We would like to thank the community of WNY for their consistent support and prayers for a peaceful solution to the conflict as the escalation of tension in the conflict was dismaying American Muslims and Jews, who have been working to build bridges between their communities but due to the tension, they were struggling to quell fear and anger in their own circles. As Prof. Haq aptly asserts, "And as the violence continues overseas, we can make a difference back here at home for the sake of our loved ones who live there in Israel and Palestine". - wivb.com.
